ABOUT ME

Motivated Data Analyst and AI & Data Science graduate with hands-on experience in Python, SQL, Power BI, Tableau, and machine learning. Skilled in data cleaning, visualization, predictive analytics, and dashboard development to generate actionable business insights. Passionate about solving real-world problems using data-driven decision-making. Experienced in building and deploying end-to-end machine learning applications with real-time inference.

EDUCATION

B.Tech – Artificial Intelligence & Data Science <i>P.A. College of Engineering and Technology, Pollachi</i>	2022 – 2026	CGPA: 7.42
Higher Secondary (Class XII) <i>SMA Matric Higher Secondary School, Tenkasi</i>	2020 – 2022	83%
SSLC (Class X) <i>SMA Matric Higher Secondary School, Tenkasi</i>	2019 – 2020	90%

SKILLS

Languages	Python, SQL, MySQL	Visualization	Power BI, Tableau, Microsoft Excel
Libraries	Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Selenium, Playwright, Fast API	Cloud & Deployment	AWS, Terraform, GitHub Actions, CI/CD, Docker, Render, REST APIs
Tools	Git, GitHub, Kaggle, VS code, Postman, Flask		

INTERNSHIP EXPERIENCE

Data Analytics Intern MercuryMinds Technologies, Chennai	Present
- Conducted AI-assisted market analysis to map product adoption, customer segments, and industry applications across multiple business sectors. - Built web scraping workflows using Selenium, Playwright, and Requests to collect and analyze market data, supporting data-driven decision-making and strategic insights. - Utilized AI tools to accelerate research workflows and generate concise summaries from large volumes of collected data.	
Data Science Intern Live Stream Technologies, Coimbatore	2024
- Assisted in collecting, cleaning, and preprocessing large datasets to improve data quality and accuracy for analysis. - Developed and implemented ML models to extract insights; created dashboards in Tableau, Power BI & Matplotlib for stakeholders. - Collaborated with cross-functional teams to analyze trends and optimize business strategies using statistical techniques.	

PROJECTS

Customer Churn Prediction System <i>[FastAPI · Python · Scikit-learn · Render · GitHub Pages · JavaScript]</i>
- Built and deployed a full-stack customer churn prediction system to identify high-risk customers using Random Forest and real-time inference. - Developed a frontend dashboard (HTML/CSS/JS) hosted on GitHub Pages and integrated with a cloud-deployed backend (Render) with probability-based insights.
Production-Grade AWS Infrastructure Automation Using Terraform and CI/CD <i>[Terraform · AWS · GitHub · GitHub actions]</i>
- Automated AWS infrastructure provisioning using Terraform (IaC) for scalable and reliable deployments. - Designed cloud architecture with VPC, EC2, ALB, Auto Scaling, RDS, and S3 for high availability.
AI Sales Forecasting Dashboard <i>[Python · Power BI · Scikit-learn]</i>
- Built an ML-based forecasting model (Pandas, NumPy, Scikit-learn) to predict revenue from historical data with feature engineering & trend analysis. - Designed an interactive Power BI dashboard for forecasted sales, KPI trends, and region-wise insights to support strategic decision-making.
Customer Segmentation Analytics <i>[K-Means · Power BI · Python]</i>
- Developed a K-Means clustering model to segment customers by behavior & spending; performed EDA, feature scaling, and outlier detection. - Built interactive Power BI & Python dashboards presenting segments with actionable recommendations for targeted marketing campaigns.
Smart Umbrella for Bikes using IoT <i>[IoT · Sensors · MSME Hackathon 2024]</i>
- Selected for MSME Hackathon 2024 (Project Worth ₹15 Lakhs); built an automated umbrella with temperature, water & wind sensors for motorized control. - Enabled hands-free, real-time sensor-driven operation with adjustable mounting compatible with various two-wheelers.

CO-CURRICULAR ACTIVITIES

- Workshop on "Artificial Intelligence" by Top Engineers at IIT Madras Research Park.
- Webinar on "Prompt Engineering – End User" at Koenig Step Forward.
- Member of "Instagram Engineers" club, organized by AI & DS Association, PACET.
- Workshop on "Blockchain and Generative AI for Cyber-Physical Systems" at KPR Institute.

DECLARATION

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge.
